

## Horticultural Spraying Specialists Traymount sprayers

Traymount sprayers are ideally suited to RTVs (Rough Terrain Vehicles) such as John Deere's Gator, Kawasaki's Mule or the Kubota range of side-by-side vehicles.

All of these vehicles are what they call "carry-alls" meaning they have a tray on the back and room for two or four people – depending on the model. Our traymount sprayers are specifically designed to go on the tray of these vehicles – the most common being the 200 & 300 litre units.

It is vital to check the carrying capacity of your RTV before deciding which unit would suit. These units can be used with a spray boom (as pictured below as an example) or with hose reels and sprayguns – ideal for horticultural use, nurseries, farms and larger properties. Can be used for firefighting, pest control work, weed-spraying and even jetting sheep.

Models include:

	<p><b>Traymount sprayers:</b></p> <ul style="list-style-type: none"><li>⇒ 200, 300 and 600 litre models available (600 not suitable for RTV's, suitable for utes)</li><li>⇒ 6 litre handwash tank</li><li>⇒ Galvanised frame with forklift clearance and tie- down points</li><li>⇒ Fully-draining sump for use on slopes</li><li>⇒ Various pump and hose reel combinations available</li><li>⇒ Electric 12-volt rewind reel with 100 metres of hose available as an option – ideal for handgun spraying</li></ul> <p>Call or contact us for more information on the models and options</p> <p>Contact details: Ph: 0448 511 771 E:don@hortspray.com</p>
