## Spray booms

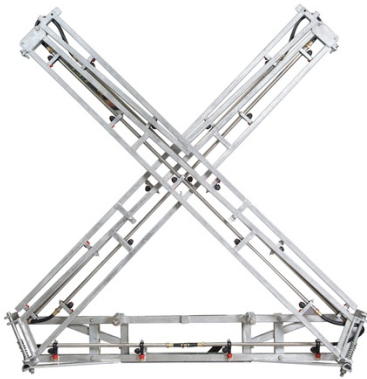

Spray booms are most often used behind a tractor and spray tank for the application of under-tree, under-vine herbicide or the application of soil improvement/nutritional products in orchards and vineyards. They are also used for broadcast spraying in vegetable crops, pastures and cereal or pulse crops.

Depending on your needs we have access to a great range of booms up to 15 metres, both in manual and hydraulic fold.

Models include:

<p>Top – covered boom Bottom – 4 metre cross-fold boom Next Page – 12 metre cross-fold boom</p> 	<p><b>Small covered boom:</b></p> <ul style="list-style-type: none"> <li>⇒ Covers on outer wings</li> <li>⇒ Adjustable for width</li> <li>⇒ Approx. 2 metres wide in narrow position, 3 metres in wide position</li> <li>⇒ Arms breakaway if contact is made with posts, trees</li> <li>⇒ Low drift nozzles fitted</li> <li>⇒ Stainless steel boom tubes</li> </ul>
	<p><b>Manual fold 4 and 6 metre booms:</b></p> <ul style="list-style-type: none"> <li>⇒ Galvanised construction</li> <li>⇒ Cross-fold for narrower folded width (great for gateways and going down rows)</li> <li>⇒ Stainless steel boom tubes</li> <li>⇒ Non-drip nozzles bodies fitted with low-drift nozzles</li> <li>⇒ Left &amp; right spring-loaded breakaways</li> <li>⇒ Easy-fit boom connections</li> </ul>
	<p>Our booms are fitted with low-drift AirMix® nozzles</p> 

**Manual fold 8, 10 and 12 metre booms:**

- ⇒ Galvanised construction
- ⇒ Cross-fold for narrower folded width (great for gateways and storage)
- ⇒ Stainless steel boom tubes
- ⇒ Non-drip nozzle bodies fitted with low-drift nozzles
- ⇒ Nozzles protected – mounted above lower boom rail
- ⇒ Left & right spring-loaded breakaways
- ⇒ Easy-fit boom connections
- ⇒ Optional self-leveling device – standard on 12 metre

**Hydraulic fold booms:**

Hydraulic folding booms are available in 6, 8, 10, 12 and 15 metre sizes

All booms are galvanized with stainless steel boom tubes, non-drip nozzle bodies & low-drift nozzles

Self-leveling is standard on 2 & 15 metre booms

For more information & pricing on these and the smaller booms, please contact us.
